

Multi-Mist Nozzle

- Kochek's *Water Movement* line provides the ultimate syringing and infield conditioning tool.
- The "Multi-Mist Nozzle" comes with four (4) adjustable gallonage tips for the Superintendent and Sports Field Manager to apply precise and accurate water patterns for a light syringe or to perfectly dampen infields.
- Kochek's innovative engineered design of the "Multi-Mist" gives this heavy duty aluminum nozzle an ergonomic and comfortable feel.
- Simply attach the desired tip. Optimum spray patterns range from 15-55 GPM. The droplet size and water flow can be set to suit any application.
